Age: 45 YEARS OLD

Region: SEA POINT, CAPE TOWN

ALL THE THERAPIES AND MORE

FIBROMYALGIA

I first met Dr Sherwin in October last year 2008, after suffering for 10 years from exhaustion, body aches and pains, and headaches. I was diagnosed 6 years prior as having chronic hypothyroidism and was told to take eltroxin. Through my journey at various specialists and gp's, I was prescribed anti-depressants, told it was sinusitis, that " with two children and your own business, this is how you should feel" the list is endless. I felt that I owed it to myself to be able to get up and have energy to get through a day.

I found that every year the symptoms were getting worse, in October last year a doctor took huge amounts of blood tests and told me that everything was normal. I knew I had to take the next step.

I was told by a friend of mine, who suffered a similar complaint and also had a thyroid condition that I should go see Dr Sherwin. I called for an appointment.

When I met him, he took a sample of my hair and did a procedure called NES and he knew my diagnosis and my prescription immediately.

I have never looked back and never felt better....

I have been seeing Dr Sherwin now for 9 months and he has sorted out all my symptoms. His vitamins, minerals and acupuncture helped cure me. I can now plan a whole day, not like in the past, only plan one thing a day, then have to lie down and sometimes not even have the energy to get up again.
